

PresAir Electronics

Illuminated

Submersible Switch

PresAir, maker of switching devices and controls for Whirlpools, Spas and Hot Tubs for over 20 years, announces a breakthrough in switch technology.

An illuminated control that can be installed at the water's edge!

**Water-safe...
withstands
COMPLETE
submersion**

Push-button control right at your fingertips

- ▶ Illuminated from within to provide feedback of operation
- ▶ As many as four different colors can indicate multiple pump speeds or mechanical settings
- ▶ Customizable to suit a variety of installations

Perfect for use in multi-pump tubs where it enables users to control the jets right at their own seats, without getting up to go to a main control.

Smooth integration with electronic systems – providing flexibility and convenience
